THE ORIGINAL BY PFEIFFER

As one of the leading manufacturers for solid surface products in Europe, PFEIFFER developed the first MIXA® in 1996, bringing together the sleek aesthetics of solid surface material and practicality of stainless steel.

Building on the success of the Original MIXA®, PFEIFFER has expanded the range with new shapes and innovative design features. Offering an endless variety of solid surface colours along with unparalleled finish, MIXA® is the established solution for seamlessly integrated kitchen sinks. *

THE MIXA® GUARANTEE

All MIXA® sinks are backed by a 10 year limited installation warranty, when installed by an authorised fabricator or service centre.

* Some dark colours and textures may vary in intensity and highlight joints. Please speak with your sales partner for more details.

MIXA[®] Kitchen sinks

The number one choice for solid surface worktops

The advantages of using an original MIXA[®] sink

- MIXA[®] was the first sink available on the international market to combine a solid surface material with stainless steel, offering seamless integration, high quality and excellent durability.
- Beautiful shapes, exciting design combinations and a full spectrum of colour choices offer unique customisation options and the ultimate creative freedom.
- MIXA[®] the solid surface sink for a boiling water tap or waste disposal unit.
- Easy maintenance backed by our MIXA[®] 10 year installed warranty.

MIXA® meets ENAMEL

We all love colours! Combine your choice of solid surface with the enduring elegance of Stainless Steel or make your sink stand out with one of our black or white enamelled bases.

MIXA® stainless steel sinks stand for style and durability. With the new black and white enamel editions, MIXA® continues to embrace this commitment.

Combine your choice with a black or white kitchen tap to really make a statement!

All about Enamel

Enamel is extremely hard-wearing when treated correctly. The surface is incredibly hygienic and ensures easy cleaning and upkeep. Please ask for our instructions for use and care details.

MIXA® R60 - The Original

The kitchen. Where you begin your day. The first port of call when you return home. A place to relax with coffee and friends. A place to bring family together.

It doesn't take a traditionalist to embrace the heart of the home.

MIXA® R60 is the original design developed and patented by PFEIFFER. Practical accessories available to add the finishing touch to your perfect kitchen.

More than 20 years ago, Werner Pfeiffer developed the first MIXA®. Marrying the durability of stainless steel with the design potential of seamless solid surface. This unique and innovative union is suited to all styles of kitchen.

Werner Pfeiffer (1935-2008);

“ With MIXA® we maximise the beauty of solid surface material and combine it with the practical features of stainless steel. “

MIXA® RO

The Minimalist

MIXA® RO sinks are the ideal solution for an ultra modern finish.

The engineered geometry of the solid surface surround integrates seamlessly to its stainless steel base, highlighting the crisp clean lines.

The Minimalist is available in our full range of material options, offering simplicity without limitation.

Designing with MIXA® couldn't be easier!

MIXA® Living

Not only the heart of the home, your kitchen can also become a design focal point.

Discover how MIXA® can help you create a space to accommodate your lifestyle and reflect your individual tastes. MIXA®'s broad range of products and wide spectrum of colours are equally suited to open-plan modern and cosy cottage living.

Harnessing the durability of stainless steel, MIXA® sinks allow the use of boiling water taps and waste disposal units whilst seamlessly integrated into your choice of solid surface.

Key Reasons For Choosing Solid Surface

Seamless joints, durable worktops, elegant and practical. Add covered up-stands, inlay stainless steel pan rests, machine recessed drainers and integrated seamless sinks, all in a non-porous and easy to clean surface.
