Materially different™

“Quality is never an accident. It is always the result of intelligent effort. There must be the will to produce a superior thing”.

John Ruskin

Specialists in bespoke Corian® & solid surface fabrication for the residential & commercial market

Counter Production have been the UK's leading fabricator of DuPont Corian® and other leading solid surfaces since 1986.

Working in collaboration with kitchen and bathroom studios, architects, developers and interior designers, Counter Production will take your drawings and designs from the page, right through to installation, assisting and guiding you at every step of the process.

“We have the human skills and the latest technology to handle your project, whether it be a bespoke macaroon tray, a domestic kitchen or a corporate reception desk.”

Patrick McGrath, Managing Director, Counter Production

Counter Production's promise

- **Professional** – all of our directly employed fitting teams wear company uniforms and work from liveried vans. They are all fully trained and expert in their field.
- **Proactive** – we look beyond the surface and with our vast experience can ensure that your solid surface designs are actioned economically and efficiently.
- **Responsive** – we believe that communication is key to successful relationships so excellent communication with our clients is at the heart of what we do.
- **Accountable** – our products are bespoke and fully guaranteed so we take seriously our responsibility to meet the high expectations of every end-user.
- **Dedicated** – we have been in business over 30 years and as we specialise solely in solid surface you can be confident that as experts in our field you will always get the best.

“I was very impressed with the installation team, they worked flat out all day with no break for lunch to keep to the schedule. I have to say they were of the highest calibre and would recommend them, you and the product to anyone. It's refreshing to see such professionalism still exists. Well done.”

SS, Lida Cucina

"I thank you and your staff for the professional way you have all acted in fitting the Corian® worktop to my new kitchen this year. Your tradesman left my kitchen cleaner than he found it. All your staff have been courteous and professional and the kitchen is stunning."

RS, London

Serving the retail kitchen & bathroom market

Counter Production will protect your reputation and will represent you professionally in your customers' homes.

After we have templated your project we produce a clear workshop drawing for your final approval prior to production. Our rigorous processes mean that your attendance at site at time of templating is not mandatory. This frees you up for other tasks that are more productive and profitable.

With digital templating and a bespoke 'in the cloud' scheduling and quotation system, we can track the progress of your project at any stage from start to finish. Our installation technicians are fully trained and all CSCS card holders, ensuring that all aspects of the job are safely carried out to your and your customers exact specification. We support our dealers by offering stunning displays, free point of sale materials and dedicated sales training for all of their staff.

Commercial projects

We have dedicated Project and Installation Managers who ensure that the projects we are working on are value-engineered for your benefit and that your site programme is always on schedule.

Recent commercial collaborations include tables and seating for British Airways Terminal 5, 100+ installations for the Wandsworth Riverside Quarter development for Nicholas Anthony and Cambridge University's Storey's Field Centre development for Farrans. With strong project management and robust support systems in place, architects and developers can trust that every step of the process is handled safely, on time and within budget.

We have produced bar tops, reception desks, outdoor seating, staircases, retail display units, baths and basins, shower trays and wet rooms to name a few. All aspects of your project will be discussed and designed with the material in mind, then value-engineered alongside our experts to ensure that your project goal perfectly matches and performs the way you envisage it.

"Your employees professionalism and care in ensuring that a superb job was done was a credit to themselves and your company. Thank you for your company's real commitment to customer satisfaction. All too often these days one receives promises of satisfaction that are not actually delivered."

RB, Maidenhead

“Your chaps were absolutely brilliant on site – and a real pleasure to work with. They responded helpfully when, with the short contract period, the job needed a flexible response – and the finish is first class. I hope we can work together again.”

McFarlane Telfer Ltd

Bespoke manufacturing

With over 30 years' experience in the solid surface market, Counter Production has literally 100's of years' experience across its 40+ staff.

From unique pieces for the Royal Estate, to art installations for Turner Prize winners, our craftsmen will work with you turning your creative ideas into reality.
